Boarding Requirements

If you are bringing your cat in for boarding with us please keep in mind that we have a few requirements that will ensure the health and safety of your kitty and the other boarders.

- Your cat must have a Wellness Exam at the Cat Hospital within the last 12 months.
- Your cat must be up to date on their **FVRCP Vaccination**

We offer an enriched environment with plenty of play time and around the clock Veterinary care. With our large picturesque windows your cat will get to observe the goings on in the hospital and the world outside. We have trained Vet Assistants to administer to any of your cat's special needs including medication and special diets. Out of food? No problem, we can supply an excellent diet to your pet for an extra \$3.30 a day. Here, cats are our specialty and with all our perches and kitty jungle gyms to climb on, they will get their own little special vacation while you enjoy yours.

Would you love to see your furry friend while you are away?

We can send you pictures and messages through our Petdesk app at any time during working hours!
